- ORANGE AROMA
- DISOLVES RUBBER
- DISOLVES TAR
- DISOLVES ASPHALT
- DISOLVES MASTICS
- DISOLVES GREASE

SAFE ON PAINTED SURFACES

ANGRY ORANGE is a natural biodegradable solvent derived from citrus fruit rhines. **ANGRY ORANGE** will successfully replace most petroleum solvents and is several degrees more effective than mineral spirits as a general solvent cleaner. The surfactants and penetrates contained in **ANGRY ORANGE** promote the rapid emulsification of soils and cut cleaning time to a minimum. **ANGRY ORANGE** is applied as is and when rinsed with water turns milk white emulsifying grease, oil, tar, asphalt or any soil so that it can be thoroughly rinsed from the surface. When used properly, **ANGRY ORANGE** will not damage most surfaces. **ANGRY ORANGE** works at any temperature, however, it is more effective in warmer temperatures. In colder climates, if possible, bring the item inside and allow to warm to ambient before cleaning. In most cases, **ANGRY ORANGE** will dissolve tar and asphalt on contact, however, if the coating of tar or asphalt is extremely thick, allow a few minutes dwell time before rinsing.

ANGRY ORANGE is a concentrated solvent cleaner and is not miscible with water. Do not dilute with water as this will degradate the effectiveness of **ANGRY ORANGE**. Use **ANGRY ORANGE** as is. Spray **ANGRY ORANGE** onto the surface to be cleaned and allow a few minutes dwell time. Agitation can be used with a stiff bristled brush. Clean and rinse thoroughly with high pressure washer, steam cleaner or hose with spray nozzle.

ANGRY ORANGE is very effective at dissolving and removing tar and asphalt. It starts dissolving these type soils upon contact. It is also very good at dissolving mastic and glues. It can be used to remove identification stickers from truck fleets and equipment. It will permeate the plastic stickers to soften and dissolve the mastic that adheres the sticker. **ANGRY ORANGE** will dissolve fork lift tire marks from warehouse floors. It will dissolve most mastics that are used to stick flooring to base substrate. It can be used to remove road tar spatter from automobiles.
