

TW-385

Touchless Truck Wash

- **NON-CAUSTIC**
- **NON-SOLVENT**
- **PROPRIETARY CATIONIC SURFACTANT SYSTEM**
- **SAFE ON ALL SURFACES**
- **SAFE ON POLISHED ALUMINUM**
- **FREE RINSING IN HOT OR COLD WATER**
- **ENHANCES GLOSS**

TW-385 is designed to clean over the road tractor/trailers and other type commercial vehicles. It will clean painted surfaces without damage (when used as directed). **TW-385** will remove carbon stack stain and magnetic road film from trailers without brushing. It will work in cold water as well as hot, and rinse free at any temperature. It will clean aluminum surfaces without damage. Designed for heavy duty cleaning such as drive through truck washes. **TW-385** is the best performing truck wash in America today. **TW-385** contains no phosphates, no phenols, no solvents, no caustics and maintains a full strength pH 12.5 and use dilution pH of 11 or less depending on dilution rate.

Application: apply to the surface at the rate of 1 part **TW-385** to 20-100 parts water, depending on severity of soil conditions. *For use in cold water application:* use at the rate of 1 part **TW-385** to 15-75 parts water. When cleaning with pressure washers, always apply cleaning solutions from the bottom up on a dry surface. Always detail clean from the bottom up and rinse from the top down. Water hardness plays an important roll in the success of brushless cleaning and should be checked before use. If water hardness is over 6 grains, a water softener should be used with the pressure washing equipment.
